## **PREFACE**

This manual is designed to be a one–source document that focuses on the aspects of flight operations. While it contains guidelines for commanders and aviators, the manual is intended primarily for use by flight operations personnel. It outlines the organization and services of flight operations and explains personnel qualifications, duties, and responsibilities. In addition, it provides information on the following subjects: flight dispatch branch; airfield services branch; petroleum, oils, and lubricants services branch; aviation unit operations; safety; and flight records.

The proponent of this publication is HQ TRADOC. Send comments and recommendations on DA Form 2028 directly to Commander, US Army Aviation Center, ATTN: ATZQ–TDS–D, Fort Rucker, AL 36362–5263.

This publication implements portions of STANAG 2952 (Edition One), Procedures for Providing Restricted Areas for NATO Military Aircraft While Using Military Airfields of Other NATO Nations.

Unless this publication states otherwise, masculine nouns and pronouns do not refer exclusively to men.

This publication has been reviewed for operations security considerations.
